Indicator/Channel LED's

LED's Indicate forward and backward movement, LED's flash on dropback.

7 High Visibility LED's Colours

Extremely bright LED's which are easily visible even in bright sunlight. The LED's indicate when connecting or when linked to active device. 7 colours available: Red | Green | Blue | Magenta | Yellow | Cyan | White. If you want to change colour of LED's this can be easily done on the alarm.

Channels – 6

6 Wireless – Each channel connects to another device by a wireless connection.

Mylar Speaker

High Quality speaker that produces sound over a broader frequency range and with a greater output in low range.

Rumble Alert

Rumble /Vibration of the Qr HUBB when an alert is received.

On/Off Power Button

Button is held for 2 seconds to power on the Qr HUBB, when pressed it also shows the level of the batteries. Green: Good Battery Level / Yellow: OK Battery Level / Red: Bad Battery Level.

Pairing/Saving Channels

Device can connect up to 6 external devices and save them to a memory which means you will not have to reconnect your settings.

Volume Adjustment

From the Qr HUBB the volume can be adjusted for different fishing situations. Care should be taken with the volume as high noise levels are available.

Global Mute

The Global Mute button will mute all paired devices if pressed once, to undo the mute a double click of button is needed.

Fully Sealed Water Resistant Electronics

Fully weatherproofed for total confidence the alarm will work in all weather conditions.

Battery Level Indication

LED colour changes for battery level indication, Green: Good Battery Level / Yellow: OK Battery Level / Red: Bad Battery Level when Qr HUBB is turned on.

Extra Long Battery life

500 hours in standby achieved by the power of 3 x AA batteries.

Extreme Transmit/Receive Range

Up to 1km Line of sight.

Qr HUBB Link

Qr HUBB Link can link the activation of a suitable link product with the alert of a paired device. This allows your Wolf bite alarm to switch on your Wolf Bivvy light on an alert*.

*Requires suitable Wolf alarm, HUBB and Bivvy light. Adjustable response via Link Response setting.

IQ Port Accessory control

IQ Port - Links other ICON accessories.

Protective Pouch

Neoprene Pouch to protect Qr HUBB Receiver from damage.

Lanyard Fixing Point

BITE ALARM CONTROLS

Bite Alarm LED Colours

Replicates colour of LED's.

Tone Settings

The Qr HUBB replicates the tone pitch of the paired Alarm.

Device Battery Level Indication

This provides a detailed measurement of the paired alarms battery level

Radio Signal Strength

The Qr HUBB will report the signal strength of the connected alarm and also indicate that the LED is working.

IQ Port

On/Off.

Mute

Local Mute Replicated at the Qr HUBB.

Anti-Theft

When turning off the connected Alarm, a tone should be played on the Alarm and Qr HUBB for theft prevention.
