

X SERIES RODS SPECIFICATIONS

The X Series are our performance range rods designed with smaller waters and canals in mind. The X Series boast a refined smooth-medium action giving a perfect balance between casting performance and playing ability.

Wolf X rods are constructed of high modulus carbon, with a smoke matt finish, cross weave banding and black whippings, giving a retro, custom look to a high-spec modern build.

As to the rings, good quality lightweight SiCs so they work perfectly well but wouldn't add potential flat spots and unnecessary weight which would reduce casting distance. The advanced pattern which gives the strength where needed and keeps the tip nice and light again increasing casting performance. An anti wrap around tip ring was added to help untangle the line when it wraps around the tip. Every little helps.

Specifications:

- High modulus carbon blank / Smoke matt finish with cross weave banding.
- 24T high strength giving great performance for casting.
- Softer & easy to compress / Medium to long range casting.
- Available in Japanese shrink tube.
- Matt-black Alps centra lock window reel seat.
- Black SiC rings in the advanced pattern.
- On all 10ft rods and on 12ft 2.75 TC rods – 40 / 30 double leg – 25 / 20 / 16 single leg and 16 anti-wrap-around cradle tip ring.
- On 12ft 3.00 TC, 3.25 TC and 3.50 TC and the 13ft 3.5 TC – 50 / 40 double leg – 30 / 25 / 20 single leg and 16 anti-wrap-around cradle tip ring.

Range:

CODE	PRODUCT	BUTT RINGS	LENGTH ft	TC lbs
WFRDX002	EVA with Shrink Tube	40	10	3.00
WFRDX003	EVA with Shrink Tube	40	10	3.25
WFRDX005	EVA with Shrink Tube	50	12	3.00
WFRDX006	EVA with Shrink Tube	50	12	3.25
WFRDX007	EVA with Shrink Tube	50	12	3.50
WFRDX008	EVA with Shrink Tube	50	13	3.50
WFRDX0012	Spod/Marker EVA with Shrink Tube	50	12	4.00
