

X1K SERIES RODS SPECIFICATIONS

Wolf X1K rods are the elite range in the Wolf series constructed of high modulus carbon with a modified fast action to enable extreme range casting. The X1K is the ultimate rod for the demanding angler who want to experience the best. They boast a smooth action that delivers a perfect balance between casting performance and playing ability. A stealth, ultra matt finish and black whippings give classy looks.

As to the rings, good quality lightweight SiCs so they work perfectly well but wouldn't add potential flat spots and unnecessary weight which would reduce casting distance. The advanced pattern which gives the strength where needed and keeps the tip nice and light again increasing casting performance. An anti wrap around tip ring was added to help untangle the line when it wraps around the tip. Every little helps.

Specifications:

- High modulus 1k woven carbon blank
- Increased modulus carbon to a combination 40T/46T reducing the weight and recovery time even further
- Anti-flash, stealth ultra matt finish / Available in full Japanese shrink tube
- Matt-black, ALPS central lock window reel seat with silver banding detail
- Extra long-range casting – up to and over 200 yards
- Extra light and very responsive / Black SiC rings in the advanced pattern
- 40 / 30 Double leg – 25 / 20 / 16 Single leg and 16 anti-wrap-around and cradle tip ring on all 10ft rods
- 50 / 40 Double leg – 30 / 25 / 20 Single leg and 16 anti-wrap-around and cradle tip ring on 12ft 3.00 TC, 3.25 TC, 3.50 TC and 13ft rods.

Range:

CODE	PRODUCT	BUTT RINGS	LENGTH ft	TC lbs
WFRDX1K003	EVA with Shrink Tube	40	10	3.25
WFRDX1K004	EVA with Shrink Tube	50	12	3.00
WFRDX1K005	EVA with Shrink Tube	50	12	3.25

X3K SERIES RODS SPECIFICATIONS

The X3K series our all-round range are specially designed to perform on a wide variety of venues from small lakes to rivers. Real 'working' rods that serve all types of fishing and give a wonderful medium action while playing fish. Wolf X3K rods are constructed of high modulus woven carbon, with an ultra matt finish and black whippings.

As to the rings, good quality lightweight SiCs so they work perfectly well but wouldn't add potential flat spots and unnecessary weight which would reduce casting distance. The advanced pattern which gives the strength where needed and keeps the tip nice and light again increasing casting performance. An anti wrap around tip ring was added to help untangle the line when it wraps around the tip. Every little helps.

Specifications:

- High modulus 3k/1k woven carp blank, increased carbon modules to a combination 36T/40T reducing the weight and recovery times.
- Stiffer, lighter & crisper action / Ideal for medium to long range casting.
- Anti-flash, stealth ultra matt finish.
- Available in full Japanese shrink tube.
- Matt-black, ALPS central lock window reel seat.
- Black SiC rings in the advanced pattern.
- On all 10ft rods and on 12ft 2.75 TC 40 / 30 Double leg – 25 / 20 / 16 Single leg and 16 anti-wrap-around cradle tip ring.
- On the 12ft 3.00 TC, 3.25 TC, 3.50 TC and the 13ft 3.5 TC 50 / 40 Double leg – 30 / 25 / 20 Single leg and 16 anti-wrap-around cradle tip ring.

Range:

CODE	PRODUCT	BUTT RINGS	LENGTH ft	TC lbs
WFRDX3K002	EVA with Shrink Tube	40	10	3.00
WFRDX3K003	EVA with Shrink Tube	40	10	3.25
WFRDX3K004	EVA with Shrink Tube	40	12	2.75
WFRDX3K005	EVA with Shrink Tube	50	12	3.00
WFRDX3K006	EVA with Shrink Tube	50	12	3.25

X SERIES RODS SPECIFICATIONS

The X Series are our performance range rods designed with smaller waters and canals in mind. The X Series boast a refined smooth-medium action giving a perfect balance between casting performance and playing ability.

Wolf X rods are constructed of high modulus carbon, with a smoke matt finish, cross weave banding and black whippings, giving a retro, custom look to a high-spec modern build.

As to the rings, good quality lightweight SiCs so they work perfectly well but wouldn't add potential flat spots and unnecessary weight which would reduce casting distance. The advanced pattern which gives the strength where needed and keeps the tip nice and light again increasing casting performance. An anti wrap around tip ring was added to help untangle the line when it wraps around the tip. Every little helps.

Specifications:

- High modulus carbon blank / Smoke matt finish with cross weave banding.
- 24T high strength giving great performance for casting.
- Softer & easy to compress / Medium to long range casting.
- Available in Japanese shrink tube.
- Matt-black Alps centra lock window reel seat.
- Black SiC rings in the advanced pattern.
- On all 10ft rods and on 12ft 2.75 TC rods – 40 / 30 double leg – 25 / 20 / 16 single leg and 16 anti-wrap-around cradle tip ring.
- On 12ft 3.00 TC, 3.25 TC and 3.50 TC and the 13ft 3.5 TC – 50 / 40 double leg – 30 / 25 / 20 single leg and 16 anti-wrap-around cradle tip ring.

Range:
